

# Want to go mining?

**We will put you in the driver's seat!**

*Largest training dump trucks in Perth!*

Intensive 5-day dump truck course designed specifically for those wishing to enter the mining industry for the first time. Many graduates have been successful with finding a new and rewarding career in mining after completion of this course.

RMS operates WA's largest and newest training dump trucks in addition to a state of the art simulator for the most relevant and comprehensive training available for those wishing to enter the mining industry. RMS specialises in mobile plant operator training for both the civil and mining industries.

Our 5-day course for \$3250 will get you:

- National Plant Operator Certification (Haul Truck)
- Intensive practical and theoretical training
- Train on our two 100-tonne Komatsu dump trucks
- State-of-the-art dump truck simulator
- Industry's best trainers
- Use of our 60 Hectare training mine site

Course includes training on RMS' state-of-the-art simulator

RMS is highly regarded in the mining industry and works closely with leading mines on a day to day basis. As such RMS knows what mines are looking for and the key skills required upfront before getting a first time job can become a reality.

RMS operates its own fleet of modern mobile plant equipment, consisting of two 100-tonne dump trucks, dozer, grader, front-end loader and excavator, at a 60-hectre training mine site north of Perth. Coupled with some of the industries best trainers, there is no better place to commence training for a job in mining or civil than RMS.

The RMS 5-day dump truck course is the company's premium training product and has enabled many graduates to find employment within the civil and mining industries.

The RMS course is unique for many reasons, including:

- RMS operates the largest and newest training dump trucks in WA
- The course includes theory, simulator training and actual machine operation
- The RMS recruitment division actively assists graduates in finding employment
  - Students experience realistic interaction with other mobile plant equipment

## Qualifications

Upon completion, graduates will receive:

- **NOHSC7019 National Plant Operator Certificate for Haul Truck**

as well as nationally recognised statements of attainment from the Resources and Infrastructure 2009 training package:

## What other students had to say...

RMS training courses have helped many people secure jobs in the mining industry, here is what some have to say about our training:

*It was like boot camp for mining! I had so much fun and now working in a dream job earning so much more than prior to my RMS training*  
– D. Hagon

*I am so grateful for the training RMS provided, without it I would not have had the opportunity to change careers and go mining!* – K. Dench

*I would recommend the RMS Dump Truck Course to anyone serious about getting a start in mining. It was the best investment of my life – D. Austin*

*The team at RMS are great. The trainers are knowledgeable and true miners. The training mine site is second to none. Thanks RMS!*  
– R. Threlfall
